

	Description/Definition	Drawing	Naming	Characteristics
<b>Point</b>				
<b>Line</b>				
<b>Plane</b>				
<b>Segment</b>				
<b>Ray</b>				
<b>Angle</b>				

Sketch and label a figure that includes the following:

- a) Draw point  $A$ .
- b) Draw point  $B$ .
- c) Draw segment  $\overline{AB}$ .
- d) Draw point  $C$  so that it is not collinear with points  $A$  and  $B$ .
- e) Draw ray  $\overrightarrow{AC}$ .
- f) Draw line  $\overleftrightarrow{BC}$ .
- g) Draw point  $D$  on ray  $\overrightarrow{AC}$ .
- h) Draw ray  $\overrightarrow{DB}$ .
- i) Draw point  $E$ .
- j) Draw ray  $\overrightarrow{CE}$ .
- k) Draw point  $F$  so that it is collinear with both points  $B$  and  $E$ .
- l) Draw segment  $\overline{EF}$ .
- m) Draw line  $\overleftrightarrow{FA}$ .
- n) Draw point  $G$  so that it is between points  $D$  and  $F$  and collinear with both.
- o) Draw ray  $\overrightarrow{GF}$ .
- p) Draw ray  $\overrightarrow{GD}$ .
