Secondary Mathematics Modules

Objective: Nevada Educator Performance Framework instructional materials and ideas for training Mathematics Educators.

Each Standards Module is produced in two parts

Part 1 – The “What and Why” of the Standard

Part 2 – The Implications and Resources for Mathematics Teachers to develop instruction and provide evidence of implementation of the standard

The video version (posted on screencast.com)

- may be used by individuals, teams, or departments
- allows module to be paused for discussion, reflection or engagement
- may be viewed by trainers as preparation for sessions they may be asked to present
- may be downloaded to eliminate possible problems with internet access.

Resources

1. Handouts should be printed for distribution to participants before the session.
 - a. Standards Chart
 - b. Activities
 - c. Samples
 - d. Resources for each standard
 - e. Evidence Indicators
2. Resources pages may be printed or distributed electronically

The link below will send you to files on *www.screencast.com*. On the bar you may choose the video or resource you need. The printed resources can be downloaded (for printing or saving with electronic links that may be included). The videos can be viewed or downloaded and saved.
