Teacher Tips

[Literature Biography Project](#) - Students will learn to develop the various processes used in researching and writing a biographical research paper, including brainstorming, note taking, outlining, creating a bibliography, and writing the final draft.

[Book Report Alternative: Summary, Symbol, and Analysis in Bookmarks](#) - In this ReadWriteThink lesson, students practice summarizing, recognizing symbols, and writing reviews—all while writing for an authentic audience.

[Child Labor: Giving Voice to the Industrial Revolution Through Monologues](#) - In this lesson from ReadWriteThink, students gather information using selected websites and explore issues related to child labor, particularly as it occurred in England and the United States during the Industrial Revolution.

[The History Behind Song Lyrics](#) - In this lesson from ReadWriteThink, students research and categorize the people, places, and events referenced in the lyrics of Billy Joel's "We Didn't Start the Fire."

[Let it Grow: An Inquiry-Based Organic Gardening Research Project](#) - In this lesson from ReadWriteThink, students learn about organic gardening by developing their own research questions, conducting research, and gardening at their school. They then create signs about their plants and present their research to the class

[Energy Drink](#) - A great writing prompt.

[Energy Drink Rubric](#) - A rubric for the *Energy Drink* speech presentation.

[Energy Drink Check-List](#)- An argumentative editing check-list for *Energy Drink*.

[Energy Drink Research Unit](#) - A table blog annotation activity.

[Energy Drinks](#) - Additional text for *Energy Drink* project.

[Experts on Energy Drinks](#) - Additional text for *Energy Drink* project.

[Organizer](#) - An writing organizer for *Energy Drink*.

[Biography project: Research and class presentation](#) - In this lesson from ReadWriteThink, students brainstorm about famous people and each selects one to research by reading a biography and doing Internet research. Students then create a graphic organizer (a web) to teach the class about the person's life.

[Campaigning for fair use: Public service announcements on copyright awareness](#) - This multi-media unit introduces students to fair use and copyright rules. After evaluating their personal usage of text and media, students research actual laws using kid-friendly Internet sites that explain intellectual property rights.

[No Place Like Home?: Arguing for the Protection of Endangered Species](#) - In this lesson, students investigate the impact of the physical environment on an endangered species. Working in pairs, they research an endangered species, factors that contribute to its endangerment, and ways to protect it.

Vertical Progression

W.K.7 - Participate in shared research and writing projects (e.g., explore a number of books by a favorite author and express opinions about them).

W.1.7 - Participate in shared research and writing projects (e.g., explore a number of "how-to" books on a given topic and use them to write a sequence of instructions).

W.2.7 - Participate in shared research and writing projects (e.g., read a number of books on a single topic to produce a report; record science observations).

W.3.7 - Conduct short research projects that build knowledge about a topic.

W.5.7 - Conduct short research projects that use several sources to build knowledge through investigation of different aspects of a topic.

W.6.7 - Conduct short research projects to answer a question, drawing on several sources and refocusing the inquiry when appropriate.

W.8.7 - Conduct short research projects to answer a question (including a self-generated question), drawing on several sources and generating additional related, focused questions that allow for multiple avenues of exploration.

W.9-10.7 - Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

W.11-12.7 - Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

The above information and more can be accessed for free on the [Wiki-Teacher](#) website.
